## PROJECT:

### FREAK TIME:

"**Freak Time**" is a versatile business web application. It is a cross-platform enterprise business tool designed to assist organizations in improving business productivity. It incorporates cutting-edge features and utilizes an advanced AI platform. "**Freak Time**" is an advanced solution for managing enterprise complexities and enhancing productivity, providing best-in-class efficiency results. With this application, you can maintain control of your projects by tracking task estimates, deadlines, workflow statuses, and monitoring project health in terms of time and finances.

### Roles & Responsibilities:

- Performed **Exploratory** testing to understand the application.
- Performed **Smoke** and **Sanity** Testing.
- Performed **Functional** testing.
- Performed **Integration** testing.
- Performed **Adhoc Compatibility & Usability** Testing.
- Involved in identifying **test scenarios** and writing test cases.
- Involved in creating test execution reports.
- Aware of working with **Agile Scrum Methodology**.
- Documented the test execution results and sharing it to the Scrum team.
- Aware of **Daily Scrum, Sprint Planning** and **Retrospective** meetings.
